- ⦿ **Partners** | UN Environment
- ⦿ **Launch date in Morocco** | March 17, 2021
- ⦿ **22** universities from eight African countries (Morocco, Tunisia, Mauritania, Ivory Coast, Senegal, Comoros, Kenya, Uganda)

The efforts implemented to educate our youth since the preschool are aimed to equip them with the necessary tools to flourish later in the realization of their ideas and actions as active students on their university campuses. The AGUYEN fits within this continuity as it is called upon to promote the integration of elements of sustainability in higher education institutions, while seeking to improve the skills and behaviours of future generations.

- ◎ **Partners** | Youngo (UNFCCC), OCP Group, Mohammed VI Polytechnic University of Benguerir.
- ◎ **Launch date** | 2019
- ◎ **Young Africans reached** | +10,000
- ◎ **Total projects recorded** | 222
- ◎ **Ambassadors representing in Africa** | 17

When young individuals are convinced and engaged to address climate change, they need to have access to concrete opportunities to achieve in what they believe the most. The African Youth Climate Hub is the youth led platform that welcomes these youth by providing them with concrete support through its incubation program and learning centre. It is also a platform that connects youth with each other and with other relevant stakeholders and most importantly it is a platform that tracks and celebrate the achievements of youth on the African continent.
